

# Instructions for setting up an iPad mini

## Set up your iPad

*Please note: these instructions were based on the most current operating system at the time they were written. If there has been an iOS upgrade since then they may vary somewhat.*

Your iPad should power on saying **slide to set up** on the lock screen. Slide.

1. Choose your language and tap the next arrow (you will use this throughout the setup process)
2. Choose your region
3. Choose the **PSU Secure wireless network**, enter your Odin login information (choose Accept if you get a Certificate message)
4. Choose **Enable location services**
5. Choose **Set Up as New iPad**
6. Apple ID
  - a. Choose **Sign in with an Apple ID** if you have one and remember your password, **OR**
  - b. Choose **Create a Free Apple ID** to set one up now. You will see a prompt to enter billing information. If you do not want to enter a credit card number select **none** at the bottom of the list (site with instructions <http://support.apple.com/kb/ht2534>)
7. Choose **Use iCloud**, then **Back Up to iCloud**
8. Choose **Use Find My iPad**
9. **Passcode Requirement**, tap **Continue**, then enter a passcode (review passcode requirements in pop-up message)
10. Choose **Use Siri or Don't use Siri**
11. Choose whether to **send anonymous diagnostic info** about use of the iPad to Apple (your choice)
12. Tap **Get Started**

## Other notes

- **DO NOT** connect your iPad to a computer to back it up. You must use iCloud.
- **DO NOT** connect your iPad to a computer to transfer files off of it. Use DropBox, Box, email attachment, or a file transfer app or other method.
- **To turn your iPad off** hold the power off button (button above the camera) for 5 seconds, then slide to power off. **To power back on**, hold the same button down for about 5 seconds until the Apple icon appears on the screen.
- The user guide for your iPad can be accessed here [http://manuals.info.apple.com/en\\_US/ipad\\_user\\_guide.pdf](http://manuals.info.apple.com/en_US/ipad_user_guide.pdf)
- GSE iPads only have WiFi, they do not have SIM cards (cellular data)
